

Wine with five pluses

Hort

+ RARENESS

+ VITALITY

+ ELEGANCE

+ EMOTION

+ LOYALTY

The Hort Winery was founded in 1999 and holds a wine tasting certificate valid throughout the European Union according to DIN, ÖNORM and ISO norms.

OUR WINE CELLAR IS LOCATED IN DOBŠICE NEAR ZNOJMO.

All grapes come from pre-selected vineyards. We place particular emphasis on selecting healthy grapes with higher sugar content and storing grape varieties. Two words have become our basic philosophy: Type & Location.

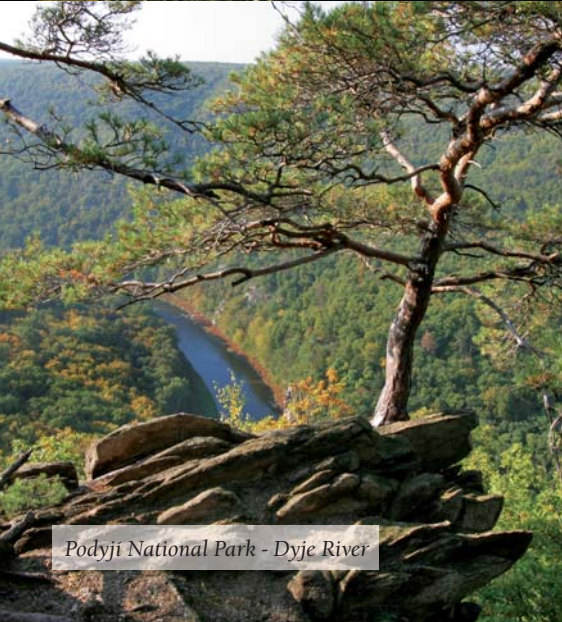

OUR PHILOSOPHY

We don't have our own vineyards, but stand between wine growers and

retailers. We select varieties from the best locations. We look for yields of less than 2.0 kg per vine and the possibility of further reduction or leaving grapes at the vineyard for the production of ice or botrytis wines.

OUR TECHNOLOGY IN BRIEF

The processing technology for grapes differs according to the variety. We aren't afraid of trying new methods and experiments in winemaking, provided these comply with nature and natural wine production. At the same time, we also like to revive old traditions. Our greatest success to date has been in rosé technology.
